

Mnav nav on mobile

About Mnav

Have you ever come across a situation where you needed to view your daily Sales Reports, Outstanding Reports, Inventory Reports or any other report urgently, but couldn't because you did not have a laptop or a desktop pc handy? OR, have your Salesperson come across situations where they have had to call up the Warehouse multiple times just to find out the inventory levels?

Well, if you have or think you may have to encounter such situations in the future then **Mnav** is your GOTO solution. Leaping Frog Solution's **Mnav** is a mobile application that brings an array of Microsoft's Dynamics NAV functionalities on your palms.

Mnav Highlights

- **Navision on the RUN:** Access your NAV database from anywhere in the world using your smart phone.
- **Reports:** No FTP Server or costly software required. Reports come directly into your inbox and can be opened through the PDF viewer.
- **Multiple Company Support:** Mnav supports multiple companies
- **Easily Customizable:** Mnav has been designed so as to allow for customizations to be integrated seamlessly.
- **Platforms:** Works on Windows Mobile, iPhone, Android phones and Blackberry phones.
- **System Requirements:** Just a good internet connectivity that's all!
